HOW TO USE ILA PRO

Administrator Quick Reference •
Set Up, Start a Conversation, and Use Key Features

ILA PRO

1 SET UP BOTH DEVICES:

- ILA Pro uses a Host device and a Guest device.
- Press power button on top right of both sides
- Connect both devices to Wi-Fi: Settings → Connections → Wi-Fi → select your network.
- Repeat on both devices.

2 OPEN ILA:

- Open the ILA app on both devices.
- The Host home screen displays the available room options.

3 CHOOSE YOUR ROOM:

- **1 on 1 Room:** direct two-person communication using the Host and Guest devices.
- **Broadcast / Multiparty:** Host communicates with multiple guests.
- **Single Device Room:** Host and guest communicate using the same device.
- **Live Interpreter:** use when live interpreting support is needed.

4 GUEST SELECTS LANGUAGE:

- Select the language and dialect on the Guest device.
- Use the search bar when needed.
- The Guest is then placed in a Conversation Room.

5 START TALKING:

- Wait until the screen is ready for translation.
- Press and hold the microphone at the bottom of the screen while speaking.
- Release when finished; the translation appears on the other device.

6 USE TEXT WHEN NEEDED:

- Tap the message bar to communicate by text.
- The keyboard opens in the selected language when available.
- If speech-to-text is unavailable for a language, typing may be required.

7 KEY FEATURES & CONTROLS:

- Settings: top-right Settings button for General, Rooms, Phrases, Context, Language Order, and Support.
- Common Phrases: available on the Host device for frequently used questions or statements.
- Audio / Mic: microphone sensitivity and related controls.
- QR Code: Host can display a QR code for remote access from smartphones or tablets.
- Live Interpreter: use from the Host menu when needed.

8 BEST PRACTICES:

- Speak clearly and use full sentences.
- Use one continuous sentence without long pauses.
- Add one contest for accurate translation.
- Avoid slang, metaphors, and colloquialsms.
- Minimize background noise.
- Check the translation on screen.
- If unclear: repeat → spell it out → type it.
